- The 2pcs soft car seat gap filler pads can effectively prevent small objects such as mobile phone, key and lighters from falling into the gap of the seat, avoiding bending over to pick up things when driving, making driving safer.
- The car seat gap filler is designed with an opening at the front end. The brake gap filler pad only needs to pass through the seat belt buckle and press into the gap, which is easy to install. Does not affect the use of seat belt slots.
- The soft seat gap filler pad is made of high-quality pu leather, environmentally friendly and odorless, wear-resistant and scratch-resistant, waterproof and durable, easy to clean. The inner filling is cotton, which is soft and fluffy and not easily deformed.
- Our leather seat gap filler pad can shrink or expand to any size, suitable for most vehicles. Seat slot protective pad can reduce gaps, increase storage space and accommodate more items.
